## Mammal Study

### Requirements:

1. Explain the meaning of “animal,” “invertebrate,” “vertebrate,” and “mammal.” Name three characteristics that distinguish mammals from all other animals.
3. C. From study and ready, write a simple life history of one nongame mammal that lives in your area. Tell how this animal lived before its habitat was affected in any way by humans. Tell how it reproduces, what it eats, and its natural habitat. Describe its dependency upon plants and other animals (including humans), and how they depend upon it. Tell how it is helpful or harmful to humankind.
4. Do ONE of the following:
  - b. Take good pictures of two kinds of mammals in the wild. Record the date, time of day, weather conditions, approximate distance from the animal, habitat conditions, and any other factors you feel may have influenced the animal’s activity and behavior.
  - g. Trace two possible food chains of carnivorous mammals from soil through four stages to the mammal.
