## Mining in Society

### Requirements:

2. Obtain a map of your state or region showing major cities, highways, rivers, and railroads. Mark the locations of five mining enterprises. Find out what resource is processed at each operation. Discuss with your counselor how the resources mined at these locations are used.
3. Discuss with your counselor the potential hazards a miner may encounter at an active mine and the protective measures used by miners. In your discussion, explain how:
4. Discuss with your counselor the dangers someone might encounter at an abandoned mine. Include information about the "Stay Out – Stay Alive" program.
5. F. Learn about the history of a local mine, including what is or was mined there, how the deposit was found, the mining techniques and processes used, and how the mined resource is or was used. Find out from a historian, community leader, or businessperson how mining has affected your community. Note any social cultural, or economic consequences of mining in your area. Share what you have learned with your counselor.
6. B. Explain reclamation as it is used in mining and how mine reclamation pertains to Scouting's no-trace principles.
